Kelly Addison at Now And Again Dress Hire

www.nowandagaindresshire.co.uk

I would highly recommend the Isle or Wight Computer Geek if you are looking for web design. The computer geek gave me a fantastic service, loads of support and advice on the best ways to build my website, I was shown how to manage the site via the back office and I have a support line any time if I need it. The Computer Geek created the website I wanted first time and has given me loads of support. I would say with the IOW Computer Geek you will get a massive amount for your money and a really great support service.

J Penn - Investigative Journalist

www.jamiepenn.co.uk

My website has front page search engine listings across the whole world for terms such as 'Hire an Investigative Journalist', this is down to The Isle of Wight Computer Geek doing exactly what they said they would do, "Exceed Expectations"

My website, although just a simple site, has attracted more contact from around the world than any other promotion method I have used in the past. The way I see it is simple, if you want to be found online, give the Isle of Wight Computer Geek a ring.

Pascale Labelle at Blue Labelle Botanical Skincare

www.bluelabelle.com

I couldn't rate the Isle of Wight Computer Geek highly enough. 24hr customer service, excellent communication, entertained all my ideas and executed them quickly and efficiently. Always updating me as to what was in process, communication always jargon free. And my website looks amazing! Friendly, approachable, local service, great value for money, and I really appreciate the continuous follow-up customer service: updating things, checking SEO, answering questions, over and above what you'd normally expect- what else are you looking for?!! I would definitely (and already have done) recommend IOW Computer Geek to friends and colleagues.

Stuart Trimmer QC – 4 Breams Buildings London

www.4bb.co.uk

We instructed Jamie and his team to produce a new website for Chambers. The product and the service we received were outstanding.

Our new site does all we asked and more. Such a project requires a ready appreciation of the core market to be reached and the use to which the web site will be put. Jamie excels at both. He is ready with his own ideas and to adapt client ideas, to make them work in a practical product. We are delighted with our new site.

Councillor Susan Chorley at Brighstone Parish Council

www.brighstoneparish.org

Brighstone Parish Council is delighted with the website built for it by The Isle of Wight Computer Geek. Very professional, extremely competent and helpful beyond our every expectation, we cannot speak too highly of the service we are receiving.

Any issues or problems we may have are dealt with effectively and promptly. We are now working through organised and useful training modules about interacting with our site as we wish to post and edit ourselves. If we prefer, the editing will be done for us. We have every confidence in excellent and on-going support.

Maxine Yule at Chillerton & Gatcombe Parish Council

www.chillertonandgatcombe.org

The Isle of Wight Computer Geek designed a new website for the parish council. They made the whole process really simple, were quick and efficient and did everything we asked. The parish council is delighted with the service and would not hesitate to recommend them.

The Isle of Wight Computer Geek were easy to contact, talked us through everything in simple terms. They took care of all the requirements to register our domain name making it very simple for the non techy people amongst us!

Mark James – JD Mortgage Services

www.jdms.co.uk

After trawling the internet for a company to develop my website and being quoted thousands, I stumbled across the Isle of Wight Computer Geek on a list of competitors. I filled in their contact form late one night and at 9am the next day, Jamie was on the phone. Straight away I knew he would be good and would exceed my expectations.

My website was up and running quickly with customers contacting me within weeks. I cannot recommend their services enough and will continue to pass their details to friends and clients of mine.

My advice is don't waste your time with the corporates, Jamie can do a professional job with the same results at a fraction of the price.

Vincent Thompson – Friends of St Mary’s Hospital

www.fosmiow.co.uk

Recognising the importance of any business, charity or public body getting the message out to their various stakeholders or customers my Trustees and Councillors asked me to commission a website for the respective bodies I work for.

Initially we went out to tender but the tenders were either too complicated or would be done remotely from afar without any apparent aftercare.

I was lucky in that I heard about the Computer Geek who I met for a short meeting. The Geek took my totally inadequate brief and not only set up my sites for me for very reasonable sums of money but he continues to maintain my sites on my behalf. All I do is send him an email with the copy and he puts it on my site for me. He also advises his customers with current information on topical issues and scams going round. I can un-reservedly recommend the Computer Geek to any prospective organisation who needs a web site.

Dr Robert Griffiths – Pro Performance Clinics

www.properformanceclinics.com

Jamie and his team have been an absolute pleasure to work with. They made creating an exceptional looking website very simple and hassle free.

Any changes I have requested, they implement them swiftly and effortlessly. Considering they also offer ongoing web support, page additions and content editing it's a superb service.

Worth every penny and can't recommend them highly enough!!!

Ian Saxcoburg – Café Racer Kits

www.caferacerkits.co.uk

We have recently had our website re-designed by The Isle of Wight Computer Geek, the service provided has been absolutely first class. We were very impressed by his ability to listen carefully to our needs and then deliver what works for us. Support has been great throughout the whole process and everything has been explained along the way. We would have no hesitation in recommending him to others.

Peter Herbert at Riverside Paddock Camp Site

www.riversidepaddock.co.uk

We are delighted with the new website for Riverside Paddock Camp Site. The Isle of Wight computer geek made the whole process as simple as possible, even coming to take pictures of the site and writing the copy for the website pages as we had very little promotional material being a fairly new business.

The website was completed in just a few days and now gives our business a presence online that we feel sure will benefit us this coming season.

Lu Mueller-Kaul at Balance Orlando Massage

www.balanceorlando.com

I asked Jamie for help with SEO. He has been amazing at always answering my emails very fast, usually just an hour after I sent them. Just a few days after they've put all the changes online, we already see much better search results.

I also want to point out that he had to communicate back and forth with my designer, who's in Germany, I'm in Florida, and even though we've gone back and forth between 3 countries it's all been very easy.

I'm highly impressed with the skill level of the IOW Geek and am already recommending them to other business owners.

Carol Bridgestock at Isle Of Wight Writing Circle

www.iowwritingcircle.co.uk

We had been sitting on an idea for a website for some time but the enormity of the project put us off seeking help. We found Jamie 'The Computer Geek' just got the idea straight away and to our surprise negated all of our concerns and even added many previously un-thought of elements to the project. We could not have asked for a more professional but friendly service.

The attention to detail and after care was and continues to be outstanding. We have more than we could have wished for – all of our must have elements we had to have and some that we never knew existed! Jamie has always gone that extra mile - and the maintenance is done automatically; updates almost immediately! Jamie is a pleasure to deal with from start to finish – can't recommend him highly enough.

James Wilson at Unique Aerospace Limited

www.uniqueaerospace.com

Cannot rave highly enough about The Computer Geek. Extremely professional service, great feedback and communication and very creative design. Very affordable and would recommend to anyone. Communication was excellent from day one and they managed to design a great looking site from very little information. They read my mind! The entire customer service element was second to none, especially as I was very remote at one point from Jamie on a different time zone. The time taken to design and publish the site was extremely quick. Would recommend them to anyone anywhere.

To see customer references, examples of my work, my full portfolio or to request a quote please visit my website at www.theisleofwightcomputergeek.co.uk or give me a call on 07840 698791
